Losing is not proof of bad play.

Plan your bankroll before you play.

EOL Tip

Never bring money you are unwilling to lose. If losing it creates a real problem, it is not entertainment money. It is a financial landmine with neon.

EOL Tip: Your stop-loss is a rule, not a suggestion waiting to be betrayed.

LEAK TRACKER

Leaks are repeated behaviors that cost money. Repair tickets, not character flaws.

Leak	Times	Estimated Cost	Fixed?

Raised bets emotionally			
Played tired			
Played too long			
Used unplanned money			
Bet every race / spin / hand

Fix One Leak This Week

EOL Tip: If it keeps happening, it is no longer a surprise. It is a system failure.

MISTAKE DATABASE

Log major mistakes. The goal is prevention, not self-roasting. Mostly.

Date	Game	Mistake	Lesson

EOL Tip: The same mistake twice is tuition. Ten times is a subscription plan.

WIN DATABASE

Track wins too. Separate good decisions from lucky accidents.

Date	Game	What Happened	Why It Worked

EOL Tip: A good outcome does not automatically mean a good process.

DECISION QUALITY SCORE

Grade the decisions. Do not let a lucky win launder bad play.

Overall Score

/ 100

Item	Points	Score
Planned bankroll before play		15
Used planned bet size		15
Followed stop-loss		20
Did not chase losses		20
