HOW TO USE THIS WORKBOOK

EDGE OVER LUCK - MEMBERS ONLY

Use the planner before you play, the tracker during or immediately after the session, and the reviews after the emotions cool down. The goal is simple: better decisions, cleaner limits, and less financial nonsense wearing casino lighting.

Core Rule

Winning is not proof of good play. Losing is not proof of bad play. Track whether the decision was good. Results are noisy. Math is less emotionally needy.

1-2% Bet Rule

A conservative average bet is usually around 1-2% of session bankroll. Over 5% gets fragile fast. Over 10% is not a strategy; it is a speedrun.

\$100	\$1-\$2
\$250	\$2.50-\$5
\$500	\$5-\$10
\$1,000	\$10-\$20

One Rule I Will Follow

Leaks are repeated behaviors that cost money. They are not character flaws. They are repair tickets.

DECISION QUALITY SCORE

EDGE OVER LUCK - MEMBERS ONLY

Score how well you followed the plan. Do not let a lucky win launder a bad decision. That is how nonsense gets promoted to strategy.
